▶▶ ABOUT THE COMPANY

Founded in 1991, the Zadar Dance Company is both a company and educational dance centre. They have collaborated with many Croatian dance artists, both in an educational and artistic sense.

▶ Due to the fact that they exist in a small town on the coast, they are extremely present in the town's cultural life, doing numerous smaller performances and pieces for the town's festivities and other events.

▶ As a company, they produce contemporary dance performances dealing with different themes and concepts.

▶▶ CURRENT PERFORMANCES

Homo Ludens

choreography: Sanja Petrovski

number of performers: 11

In today's society, tragedies sometimes seem bizarre and grotesque as a result of global perception of values as well as mass media presentations. The performance plays with this concept - the extent to which a real tragedy can turn into something to laugh at - but never using superficial interpretations.
